

UK AUTOMOTIVE SUPPORTS THE EU ECONOMY

The UK and EU are each other's biggest automotive trading partners. The UK remains deeply integrated in the pan-European automotive ecosystem, despite Brexit, and is a vital driver of EU economic activity. UK automotive manufacturing generates billions of spending within the EU, while supporting a quarter of a million jobs across EU member states.

CONTRIBUTIONS TO EU MEMBER STATES BY THE UK AUTOMOTIVE SECTOR

JOBS		COUNTRY	GDP (€ millions)	
1	69,000	Germany	€6,300m	1
